IT

MR- C 30 Unità mobile da perforazione radiocomandata con centrale idraulica separata per l'esecuzione di fori orizzontali, verticali o inclinati. Struttura semovente equipaggiata con cingoli in gomma a careggiata variabile e azionata da centralina idraulica separata con motore diesel da 44 / 75 HP o elettrico da 40 Hp. Sulla MR- C 30 è possibile montare una testa di rotazione modello ID 500, oppure una perforatrice idraulica modello MA100 per l'esecuzione di micropali, ancoraggi, tiranti e consolidamenti con barre autoperforanti. Grazie alle sue dimensioni compatte e al mast modulare, questa perforatrice è indicata per lavori in cantieri con accesso limitato.

ENG

MR- C 30 Remote controlled mobile drilling unit with separated hydraulic power pack suited to execute vertical, horizontal or inclined holes.

Self moving wagon unit with variable width rubber tracks, powered by a separate power pack on crawler with 44 / 75 hp diesel engine or 40 Hp electric motor. The MR- C 30 can be equipped with a hydraulic rotary head mod. ID 500 or MA 100 hydraulic drifter for the execution of micropiles, anchors, tie-backs and ground consolidation with hollow bars. Thanks to its compact dimensions and to the modular mast, this drill rig is indicated for limited access job sites.

FRA

MR- C 30 Unité de forage mobile radiocommandée avec centrale hydraulique séparée pour le forage de trous horizontaux, verticaux ou inclinés. Structure automotrice équipée avec chenilles en caoutchouc à largeur variable et actionnée par une centrale hydraulique séparée avec moteur diesel 44 / 75 HP ou électrique 40 HP.

Sur la MR- C 30 il est possible installer une tête rotative modèle ID 500, ou une foreuse hydraulique modèle MA100 pour l'exécution de micropieux, d'ancrages, de tirants et de consolidation avec des barres auto-perforantes. Grâce à ses dimensions compactes et à sa glissière modulaire, cette machine de forage est indiquée pour les travaux sur les chantiers à accès limité.
